Report created: 2026-06-19

Source and definitions: Data source is DataLoft by PriceHubble. * Data for period of analysis indicated. Achieved rents are from data pooled from tenant referencing companies based on new tenancies started. Asking rents are based on initial asking rent of new listings in the period using data from I am Property. Where bedroom numbers are unknown, the following assumptions apply: 1-bed 400-600 sq ft, 2-bed 600-800 sq ft, 3-bed 800-1000 sq ft, 4 bed 1000+ sqft. Averages are calculated using a geometric mean.
